

odf.element.Element.addText

```
graph LR; A[odf.element.Element.addText] --> B[odf.element.Node.appendChild]; B --> B;
```

The diagram illustrates a sequence of operations. It begins with a rectangular box on the left containing the text 'odf.element.Element.addText'. A straight blue arrow points from the right side of this box to the left side of a second rectangular box on the right. This second box contains the text 'odf.element.Node.appendChild'. Above the second box, a curved blue arrow starts from its top edge and points back down to its top edge, indicating a self-loop or a recursive call.

odf.element.Node.appendChild
